EXPERIENCE

Freelance Web Developer

Aug 2025 - April 2026

Gloosy — <https://gloosy.com>

- Gloosy is an innovative platform for user-generated content (UGC) and influencer marketing in the DACH region.
- Worked on frontend development using Next.js, building and optimizing platform features for connecting brands with content creators.
- Contributed to UI/UX improvements to support transparent pricing, simple execution, and high-quality UGC campaign workflows.
- Collaborated remotely over a 8-month engagement to deliver scalable, performant web solutions.

Intern Web Developer

April 2025 - July 2025

Flowrage Technology — <https://flowrage.com/>

- Specialized in Search Engine Optimization (SEO), Web Architecture, and Web Content Optimization to enhance user experience and boost traffic.
- Utilized Google Analytics to track and analyze website performance, providing actionable insights for optimization.
- Applied strong problem-solving skills to resolve technical SEO issues, ensuring smooth indexing and crawling of web pages.
- Worked on multiple client projects, implementing effective SEO strategies to improve search engine rankings and website visibility.
