GPA: 3.82

Projects

CAREMIND

I'm currently working on CareMind, which is an intelligent health assistant that helps users manage their well-being.

- Offers personalized advice based on symptoms, medical history, and daily habits.
- Suggests basic remedies for common issues.
- Alerts for medications, doctor appointments, and daily habits.

Technologies used: React, Python, Node.js with Express.js (for REST API), MongoDB, PyTorch (for health recommendations), NLP

EVENTIFY

Eventify is an intuitive event management platform designed to streamline the process of creating, managing, and participating in events.

- Supports scheduling events that repeat over time.
- Simplifies event setup and management for organizers.
- Facilitates easy discovery and joining of events.

Technologies used: React, Tailwind Css, Firebase

ECOQUEST

EcoQuest, developed during a WLiT 3-day hackathon, Promotes sustainable living by tracking carbon footprints and encouraging eco-friendly actions.

- Tracks individual carbon emissions.
- Encourages eco-friendly choices and impactful actions like planting saplings.
- Led frontend and backend development.
- Ensured an intuitive user experience and robust infrastructure to support its mission.

Technologies used: React, Tailwind Css, Express, Node Js

Involvement

**Women Leaders in Technology
Pokhara Fellowship 2024/25**

July 2024

- Engaged in interactive learning experiences and project-based activities that promote technical expertise, leadership development, and entrepreneurial thinking.
- Participated in immersive coding bootcamps and hackathons aimed at developing practical programming skills, innovative thinking, and teamwork.

Volunteer Service - WIIT

Sept 2024

Volunteer

- Recognized for outstanding volunteer service with Women In Information Technology(WIIT).
- Taught **SCRATCH** coding to secondary-level students at **Shree Bhawani Vidhyapeeth Secondary School**, Khanigun, Parbat.
- Contributed to promoting coding education and empowering young learners in technology.

10th GCES ITEXPO

June 2024

Volunteer

- Served as a social media handler, promoting event activities and engaging with the online community.
- Facilitated a quiz competition, enhancing participant engagement and interaction.
- Created a video for a tech talk, enhancing visibility and outreach as an influencer.
